Spindle Repair Service

1 EVALUATE & ESTIMATE

In-House Capabilities

Our in-house engineering, machining, and testing capabilities allows for quick turnaround time, total quality control, and solutions for tough engineered challenges.

Emergency Evaluation

Get your damaged spindle evaluated within 24 hours at no extra cost with Gilman's emergency evaluation service.

2 REBUILD, REPAIR & REFURBISH

Spindle Repair

Gilman Precision provides rebuild, repair & refurbish services on virtually any brand, model and type of belt driven and integrally motorized spindles.

Quality Control

Our class 10000-level clean-room and state-ofthe-art production equipment provides quality repairs with double the long-life capabilities compared to a traditional plant.

$\overline{3^{\text{QA}}_{\text{TESTING}}}$

Quality Assurance Assessment and Documentation Includes:

- Vibration analysis
- Temperature run in curve
- All run-outs of the spindle

4 GILMAN BENEFITS

Pick Up & Installation Gilman Precision and Busch Precision partnered to provide spindle removal, transportation, and expert installation services in the WI/IL area.

Spindle Housing & Resort In order to maintain customer warranties, Gilman will securely store repaired spindles, and re-evaluate the spindle before shipping. The warranty then begins upon installation.

66

Our initial problem was excessive vibration and noise from the spindle. We sent it in to Gilman and had them analyze it to correctly assess the problem. They gave us a quote, we offered them to opportunity to continue and repair it, which they did in a timely manner, and returned it to us promptly. We were very happy with the service.

Randy Pattison, Binsfeld Engineering

Customized Rotary Motion Solutions... Since 1952.

Gilman prides itself on ingenuity and the ability of finding an answer for your engineering challenge. No matter how simple or complex, Gilman can design a slide or spindle to meet your exact need. Call us today to discuss your challenge.
