

BUSCH PRECISION INC.

PRECISE. PROVEN. PARTNER.

PRECISION TOOLING

Price List

2012-2013

ONE STOP MANUFACTURING AND MACHINING

Busch Precision provides a single source solution for all your machining, manufacturing, repairing, rebuilding, and quality assurance needs. Since 1907 Busch Precision has produced proven precision for the energy, mining, military, and metal producing industries. Featuring VTC capabilities to machine components and materials up to 56,000 lbs., your production needs, on any scale, will be met with proven precision.

MACHINING/GRINDING CAPABILITIES

CNC Horizontal/Vertical Milling Centers

Lathes | Vertical Turning/Boring

Keyseating/Slotting | Precision Surface Grinding

MACHINING/ GRINDING SPECS	DIA.	LENGTH
Lathes	to 40"	to 26 ft.
	DIA.	HEIGHT
Vertical Turning/Boring	to 180"	to 101"
CNC Horizontal/Vertical Milling Centers	up to 56,000 lbs.	
Keyseating/Slotting	All types, sizes	
Precision Surface Grinding	to 16 ft.	

PRECISION TOOLING

When your project demands precision, Busch Precision delivers.

Busch Precision manufactures a complete line of precision tooling products used in layout, tooling, inspection, and quality assurance. With over 300 items in stock and ready to ship, Busch can ship your precision equipment order at a moment's notice. Our precision products come in a wide range of materials, sizes, and finishes to meet your needs.

Materials	Finish	Accuracy	Finish #2	Grade
Aluminum	Ground	to .0002"	Handscraped	-
Cast Iron	Ground	to .0002"	Handscraped	-
Steel	Ground	to .0002"	Handscraped	-
Granite	Standard	.000100" / .000050" / .000025"	B / A / AA	
Ceramic	Standard	.000025"	AA	

Precision Tools

- Angle plates - parallels
- Cast iron, steel, aluminum
- Custom tooling
- Granite, ceramic
- Master squares
- Recalibration
- Straight edges
- Surface plates

A Quick Look at Busch

In 1907, Master machinist Julius C. Busch founded the firm bearing his name to provide machine shop services. Located in Walker's Point, Milwaukee's early industrial center, Busch developed close working relationships with several pioneer industrialists.

From the steam and belt driven machinery of the early 1900's, the company progressed slowly but steadily, updating machinery, embracing new technology, and adopting new techniques. During this progress, the firm never lost sight of the strong work ethic and honest values that characterized its founder and his fellow pioneer industrialists.

With a workforce made up of skilled machinists, technicians, and support personnel, Busch Precision provides a most comprehensive range of machining and related services for the manufacture and/or repair of any type of machinery component, subcontract machining, on-site machining, repairs and maintenance, as well as complete machine rebuilding.

Whatever your needs, Busch Precision has more than a century of machining, machine rebuilding, and repair experience. We look forward to serving as your precise, proven, partner.

PRECISE. PROVEN. PARTNER.
